

Accident Investigation Training

Competencies:

Accident Investigation Training - Personal Effectiveness Problem Solving.

Who Should Attend?

Any employee, supervisor or manager who is required to carry out an accident investigation following any work related accident, incident, near miss or ill health at work.

Aims:

To ensure learners have the knowledge and skills required to carry out an effective initial investigation following any work related accident, incident, near miss or ill health.

To provide learners with the skills, knowledge and confidence to compile a professional investigation report in an accurate and accountable manner and in accordance with current legislation or good practice.

Learning outcomes: After the session learners should be able to:

- ❖ Understand their companies Health & Safety Accident Investigation Arrangements for their sector-industry.
- ❖ Identify the immediate and underlying causes of work related accident, incident, near misses or ill health at work.
- ❖ Determine appropriate remedial actions to prevent or reduce the likelihood of a recurrence of an accident, incident, near misses or ill health at work.
