<b>Accidents, incidents of medical assistance.</b>	Physical Injury/ Death.	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	<p>It should be expected that Supervisors maybe required to deal with first aid or medical incidents at the venue-site.</p> <p>Supervisors MUST call for medical assistance and then 999 where needed. Comply with crowd control and information gathering.</p> <p>No first aid must be given by Supervisors unless you are the nominated first aider on site for the venue, and that you are authorized to give first aid with an up to date first aid certificate that is valid. If you are then you must call for help first then assess and carry out your first aid as per your training and risk assessment, then report as per our reporting procedures, asap after the incident is safely over.</p>	2	3	6	Sub.	The Supervisor should co-operate safely with clients, customers and emergency services, within their duty of responsibility.
--	-------------------------	--	---	---	---	---	------	--

Slipping, Tripping and Falls.	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	It should be expected that the floor at times maybe wet or slippy, therefore extra caution should be taken when moving through the venue. The Supervisor should ensure that venue manager, or DPS are made aware of areas that need to be cordoned off and made safe. Areas need to have appropriate signage in place, and should be used to clearly define the area as a hazard, where necessary. All accidents or near miss occurrences MUST be reported asap, where reasonably practicable to do so, to the venue contact and Duty Manager, or DPS. Also an entry made in the reporting logs, accident book, and a copy sent to TSO Office, via the normal reporting procedures, backed up with a record on the TSO Incident chats.	1	2	2	Acc.	The Supervisor should be actively monitoring the condition of the floor throughout the venue, and be aware and observant at all times, of areas where the floor is likely to be hazardous. (e.g. around the storage area, toilets, bar areas, communal areas, passages, stairs, dance floors, changes in floor environments, static or temporary, including stages, pit areas, internal or external flooring, beer gardens and Marques). Supervisors should make the DPS and or Duty Manager or nominated staff aware of the spillage, so the floor can be made safe. If necessary the Supervisor should move people away from the spillage, danger area until a member of staff arrives and makes the area safe, if safe to do so.
-------------------------------	-----------------	--	--	---	---	---	------	---

<b>Changes in Floor Levels Uneven Ground, static or temporary.</b>	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Through the venue - site there maybe changes in floor levels (not including stairs) and uneven ground, flooring and potentially holes or excavation work, uneven floor fittings and carpets etc. The Supervisors should be aware of; -Outside areas -Suitable sturdy footwear, appropriate for the task and environment, with preferably ankle support boots should be worn at all times if at work on site, on venues suitable protective boots with ankle support. -Steel toe cap footwear, only to be used if requested by client and risk assessed. -Stick to designated walk areas, or authorized safe paths, permanent or temporary.	1	2	2	Acc.	<p>The Supervisors should be fully aware of the venue - site layout, from their induction or walk round tour. Additional diligence should be shown around these raised areas regarding spillages, or hazardous locations, and changes in environment, e.g. poor or temporary lighting, changes in lighting, disco lights, strobes, and changes in natural lighting, daylight, dusk, darkness and weather changes, sun, mist, cloud, rain, snow etc. Supervisors should make the venue-site DPS or Manager aware if there is a spillage, so the floor can be made safe etc. If necessary, the Supervisor should move people away from the spillage until a member of trained staff arrives, with the appropriate PPE for the task. It is imperative that a wet floor or danger area signs are placed where required or cordoned off, until made safe.</p> <p>Supervisors MUST report any issues to the person in charge on site, and in their reporting logs, as per policy and procedure for that venue.</p>
--	-----------------	--	--	---	---	---	------	--

Tel: 07787788811 [dgap@hotmail.co.uk](mailto:dgap@hotmail.co.uk) [www.tacticalsecurityoptions.co.uk](http://www.tacticalsecurityoptions.co.uk) [dave@tacticalsecurityoptions.co.uk](mailto:dave@tacticalsecurityoptions.co.uk)

<b>Wall Fittings, other related objects or furniture, environmental hazards, e.g. fixtures and fittings, static or temporary.</b>	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Through the venue - site there are various objects mounted on the walls, fixtures and fittings etc. Inc. poster holders, light or heater fittings, containers, first aid, fire or emergency, covid-19 sanitizer station locations. The Supervisors should be aware where all these objects are and show due diligence in preventing injury to themselves and customers, by being observant and proactive in safe working methods.	1	1	1	Tri.	Supervisors should inform staff or customers if they get too close to these objects whilst their awareness maybe impaired through being too busy, fatigued, poor lighting, lost or working, not showing due care, or under the influence of liquor, drugs or emotional and confused etc. To prevent accidental injury and/or damage to site property. All occurrences MUST be reported by the Supervisor as per venue and TSO policy and procedures.
<b>Pillars/Corners and pointed sharp edges from venue, site equipment, fencing, stage areas and other etc.</b>	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should be aware of the shelving areas around the walls and pillars, sharp edges from fencing or plant equipment throughout the venue - site and any pointed edges they may have. Care should be taken at all times, and good observation and concentration to avoid any incidents or accidents.	1	2	2	Acc.	See 'Wall Fittings'. In addition to this Supervisors should attempt to ensure that these areas have any unwanted equipment or plant removed on a regular basis, to reduce any risks. All occurrences MUST be reported by the Supervisor as per venue and TSO policy and procedures.

Tactical Security Options Ltd  
Room 704 Cameron House, White Cross Industrial Estate, South Road, Lancaster, Lancashire, LA1 4XF.  
Tel: 07787788811 [dgap@hotmail.co.uk](mailto:dgap@hotmail.co.uk) [www.tacticalsecurityoptions.co.uk](http://www.tacticalsecurityoptions.co.uk) [dave@tacticalsecurityoptions.co.uk](mailto:dave@tacticalsecurityoptions.co.uk)

Stairs/fall from Height, raised areas, stages etc.	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should ensure that customers or themselves are not positioned at the top of stairs or place themselves in vulnerable positions which may allow them to be knocked over or fall a considerable distance. Supervisors must not work above ground level at height, or stand on or use ladders or platforms, if not trained to do so and authorized. If on patrol, or guard and venue-site employees or contractors are observed working at height, patrol in safe areas/zones only.	2	3	6	Sub.	<p>A qualified First Aider should be on site at all times, and a Health &amp; Safety Officer or person responsible for H&amp;S issues at the venue-site.</p> <p>Supervisors must be aware when working in a stage pit area, and be mindful and observant when working these areas, and manual handling and person handling.</p> <p>Supervisors should read the Assignment Instructions AKA (AIs) Risk Assessments (RAMs) and any other Standard Operating Procedures (SOPs) related to the venue – site, if in doubt ASK!</p>
--	-----------------	--	--	---	---	---	------	---

<b>Objects Falling from Height, being dropped or thrown as a projectile from a customer or crowd.</b>	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should ensure that objects, tools are not left on or around the stairs or places at height. Staff or customers are not leaning over the stairs or places of height, with any objects that are not safely secured. Supervisors are to deal with any signs of violence with the throwing of bottles or other items from height, projectiles, over the harris fencing, barriers, pit areas or other by youths, customers or other as per their training and individual dynamic risk assessment of threat. This also includes balcony areas in venues, stages and pit areas, or any area at height permanent or temporary. All incidents MUST be reported as per your AIs.	1	3	3	Mod.	Supervisors should NOT be removing items from the potential hazard areas unless safe and authorized to do so. Supervisors should be instructing customers to not lean over the rails to look down from height. Also customers should be asked to keep moving on stairs, rather than stopping and congregating unnecessarily. Always being polite at all times to reduce the risk that it does not cause conflict situations to arise. The Supervisor should be making staff and customers aware of the problem, and asking them to keep the area clear on a regular basis for safety reasons. Failure in compliance should be dealt with in a reasonable way. If staff, then this should be reported to the site Manager, or person responsible for their staff. It should be recommended to the venue-DPs or site manager, through the correct channels that shelving areas around the stairs are modified so they are angled to discourage staff or workers from leaving items there, or regularly checked for compliance or human error.
---	-----------------	--	--	---	---	---	------	---

<b>Doors, Shutters, Windows and Glass or alternative materials, and furniture.</b>	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	<p>If working in licensed premises, venue or event, Supervisors are to be aware of their environmental surroundings, such as doors, windows and glassed areas etc. when working, ejecting customers or dealing with violence internally or externally.</p> <p>If Supervisors are engaged on other venues-sites, the venue-site refs room, staff room, cabin or other welfare unit. All areas, doors, shutters are to remain closed and secure, when not in use and then where possible opened for customers, visitors and staff if authorized.</p> <p>Windows and Glass- Windows around the venue are reinforced to prevent shattering if they are broken.</p>	1	3	3	Mod.	<p>Supervisors should always perform their start of shift (SOS), checks fully. They should also be aware that disgruntled customers, youths and other congregating around the external venue-site, fence/wall who may attempt to throw objects over the fence/wall.</p> <p>If working in licensed premises Supervisors MUST be aware of potential bottles or objects being thrown through the windows or glassed areas, during any acts of violence at the venue-site-event.</p> <p>If such an incident does occur, it is classified as criminal damage and the police should be called immediately.</p> <p>All incidents MUST be reported as per our procedures.</p>
--	-----------------	--	--	---	---	---	------	---

Hazard	Harm	At RISK	Risk Control in place	Factors			Risk Rating	Additional Risk control to be considered or implemented
				L	S	R		
<b>Furniture or Obstacle's</b>	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should be aware of their situational environmental surroundings, as any injury caused by these could cause a major incident in the event of a full venue - site evacuation. This also minimises the potential for Supervisors or People tripping over and becoming injured or crushed.  Supervisors are to be mindful and observant when ejecting people and furniture or obstacles in the path way, route. Supervisors should put furniture and seating back in its place if safe to do so, i.e. chairs replaced under tables, to create a safe working environment.	1	3	3	Mod.	Supervisors should be actively monitoring obstacles, or plant equipment, when patrolling or moving around the venue-site. They should also ensure that when a table/seating area is vacated, that all the chairs are placed back in the correct position, and housekeeping is adhered to at all times, and the removal of rubbish on a regular basis, if safe to do so.

Tactical Security Options Ltd  
Room 704 Cameron House, White Cross Industrial Estate, South Road, Lancaster, Lancashire, LA1 4XF.  
Tel: 07787788811 [dgap@hotmail.co.uk](mailto:dgap@hotmail.co.uk) [www.tacticalsecurityoptions.co.uk](http://www.tacticalsecurityoptions.co.uk) [dave@tacticalsecurityoptions.co.uk](mailto:dave@tacticalsecurityoptions.co.uk)

Client's Property Used on Site	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should ensure that all equipment provided by the client, i.e. the Two-Way Radio, Mobile phones, welfare facilities, or other where issued, are in full operational and working order at the start of every shift, SOS. Under no circumstances should Supervisors use any IT or computers unless authorized to do so by the company and the client, written permission must be granted.	1	3	3	Mod.	Any faults with equipment, PPE or other should be immediately reported to both, the venue and management so corrective action can immediately be put in place.  A record should also be made as per our reporting procedures.
-----------------------------------	--------------------	---	---	---	---	---	------	--

Emergency Evacuation, Fire, Threat of Terrorism or Bomb Evacuation.	Physical Injury/ Psychological Effects/ Death.	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	There are a number of emergency exits on and around the site, but we cannot name every eventuality. Supervisors should be aware of where all exits, are and ensure that they are all kept clear and maintained at all times, with observation checks, before during and after duty. Supervisors must ensure that they are familiar with the premise's layout and be aware of potential fall areas in the event of an evacuation. Instructions of the evacuation will be issued by senior management in order to ensure security of the procedures.	1	3	3	Mod.	<p>All Supervisors should be aware of and understand the fire &amp; evacuation plan, be fully aware of the venue layout and know what role that they, and other team members, play in the event of an evacuation.</p> <p>All Supervisors on finding a fire MUST sound the alarm, by the nearest MCP manual call point, and also shout fire get out... Supervisors must then evacuate the area and await instructions from the management and or DPS nominated person in charge on what to do next, carry out these duties if safe to do so, and trained.</p> <p>All other evacuations, instructions will be issued by senior management based on a dynamic risk assessment on site.</p> <p>Supervisors must refresh training and web portal procedures, and take part in fire awareness and or even fire marshal training as per the clients and or company risk assessment.</p> <p>Supervisors to take part in fire, health &amp; safety and counter terror training, as ongoing training.</p>

Noise Levels	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should be made aware that at times music levels may reach a level which could cause long term damage to their hearing if exposed to it for a prolonged duration. PPE must be worn at all times, especially if working in the pit area and another area where they are exposed to loud noise. Staff rotation should be implemented and reviewed regularly to reduce the amount of time in an area of noise. Supervisors to ensure PPE supplies never run low or run out, they must inform TSO of any supplies needing to be replaced as soon as possible. In addition the client will have PPE if you run out on the night or shift.	1	2	2	Acc.	<p>Supervisors should be provided the option of having their own ear protectors. In addition to this the Site Manager or Supervisor should rotate their positions, so that during the shift they all have a period where they are stationed away from excessive noise. If there is no supervisor or head door supervisor there, then the Supervisor should use common sense and self rotate with others.</p> <p>However, where there is no manager in place Supervisors should use an adult approach and regularly rotate, and the Site Manager oversee such actions, still ensuring the security of the venue-site-tasks and duties as per the risk assessment or agreement.</p>

Lone Worker Isolation and Any other related Communication issues,	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	The Supervisor must ensure that they have the community radio with them at all times during the shift especially if he/she is the only Supervisor on duty for the shift, where applicable. All Supervisors must use internal radios for communication due to blind spots throughout the site or breaks in the line of sight between team members, or management. Regular radio checks and SOS checks should be made in addition; also the use of mobile phones should be used if no radios are in operation, or poor signal equipment failure or other. Along with hand signals and communication verbally face to face between supervisors.	2	3	6	Sub.	<p>All Supervisors to be fully trained in radio operation procedure (both internal and community) and ensure that the correct checks are performed on the radios before the shift starts.</p> <p>They should also be made aware of where blind spots are and circumstances where they could become isolated for a period of time.</p> <p>Endorse a buddy system and face to face verbal and visual checks with other supervisors.</p>
---	-----------------	--	--	---	---	---	------	---

Tactical Security Options Ltd  
Room 704 Cameron House, White Cross Industrial Estate, South Road, Lancaster, Lancashire, LA1 4XF.  
Tel: 07787788811 [dgap@hotmail.co.uk](mailto:dgap@hotmail.co.uk) [www.tacticalsecurityoptions.co.uk](http://www.tacticalsecurityoptions.co.uk) [dave@tacticalsecurityoptions.co.uk](mailto:dave@tacticalsecurityoptions.co.uk)

<b>Site Patrol/ Toilet and Vulnerable area Checks.</b>	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	The Supervisors should remain vigilant at all times whilst conducting tours of the site internally & externally, and checking the toilets and all other sensitive areas. The Supervisor should aim to avoid unnecessary confrontations with customers; if assistance is required it should be called for immediately (see notes on lone worker communication).	2	3	6	Sub.	Supervisors to ensure they are familiar with the premise's layout and the available points of ejection, escape or evacuation. They should also be aware that lighting levels will be low in areas of the site, if tower lighting, static or mobile is not in place. Also see Lone Worker Isolation notes.  Regular checks for safety to be carried out on environments and supervisors.  Regular checks on Supervisors SOPs and Staff portal, to check for updates.
<b>Verbal Abuse</b>	Psychological effects	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should maintain a friendly demeanor at all times whilst performing their duties. Try to discourage verbal abuse from potential or actual customers, and reduce the risks by early intervention using conflict management skills, as per the Supervisors training, knowledge and understanding with experience and guidance.  However, it must be accepted that this may often occur when the Supervisor is performing their duties.	3	1	3	Mod.	Supervisors should not respond in a manner to antagonise situations further causing them to escalate. Conflict management training is mandatory for all Security Supervisors, and they should act as per their training, using good communication skills, and conflict management. All incidents of verbal abuse no matter how minor MUST be reported in written form in your report logs, and to a line manager, if serious to the police.

Hazard	Harm	At RISK	Risk Control in place	Factors			Risk Rating	Additional Risk control to be considered or implemented
				L	S	R		
<b>Violence towards Supervisors, Client Staff and Customers and use of handcuffs or restraint related devices, or DNA sprays where authorized and used.</b>	Physical Injury/ Psychological effects/Potentially death or life changing affects.	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should take a proactive role in stopping situations escalating into physical confrontation/ violence. If the Supervisor witness's physical altercation/ assault the customers or staff workers, if safe to do so the aggressor involved should be ejected or detained (if applicable or safe to do so). Then the police called if the situation warrants it. Regular refresher training in place for supervisors. Only authorized appointed persons to use restraint related devices or sprays, as per their training and authorized by TSO MD only.  Use of force risk assessment MUST be read and followed by the Supervisor at all times.	2	3	6	Sub.	Supervisors should always request assistance when ejecting a person from the site and be aware that the person to be ejected may require holding, restraining, or need other types of assistance, guidance or medical or assistance. See Lone Worker Isolation and Site Patrol/ Toilet Check notes. All ejections must be documented on the relevant forms and given to the site manager to counter sign. Conflict and Physical intervention training will be provided by the company when applicable. In addition to the above a qualified First Aider should be on site at all times. Or you may have to call the emergency services. All incidents MUST be reported in your report logs and to a line manager asap. Only hand cuffs or restraint related devices, DNA sprays should be applied by a trained supervisor as a last resort, only if their training is still in date, training to be refreshed every 12 months, authorized by the MD only.

<b>Hypodermic Needles, sharps or pointed objects.</b>	Physical Injury/ Psychological effects/Potential death.	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should be actively aware of any signs of drug use around the site externally in some deprived areas. They should never directly handle hypodermic needles without adequate protection, PPE and if authorized and trained to do so. If searching is permitted on site, under no circumstances should the Supervisor ever place their hand into an area they cannot see into. For example, the bottom of a customer's bag, compartments of a wallet/ purse, down the side of a cushion/ seat. Also if vehicles are being searched the same principals apply. If Supervisors come in to contact with needles etc, when patrolling the venue-site, same rules apply as above, cordon area off, call for assistance, crowd control till area is made safe.	1	3	3	Mod.	<p>If the Supervisor does accidentally prick them-selves, or their skin is punctured by the object, they should seek medical attention immediately and minimise their contact with other people.</p> <p>Regular training tool box talks and reminder of procedures to be carried out when required. With additional training and development and supervision.</p>
---	--	--	---	---	---	---	------	---

<b>Suicides or mental health related issues.</b>	Psychological Effects	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should be touring the entire premises on a regular basis and monitoring customers for strange behavioral patterns. If any issues are noticed they MUST report this to the DPS or Manager straight away and act on their guidance if safe to do so, and the emergency services called straight away.	1	3	3	Mod.	<p>A qualified First Aider should be on site at all times to administer immediate medical attention. In this situation the emergency services should always be called.</p> <p>Mental health awareness training issued to supervisors.</p>
<b>Searches, searching people, property and premises.</b>	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	<p>Supervisors should be aware of the potential for sharps and the contamination hazard that can result due to a search not being performed correctly (see notes on 'Hypodermic Needles').</p> <p>Only if searching is allowed, then safety should be observed at all times, when performing such actions.</p> <p>Additional training and CCTV to be in the area of the search with a witness.</p>	1	3	3	Mod.	<p>When it is necessary to search customers, visitors, contractors or staff workers, Supervisors should always ensure that the customer (self-search) fully empties their pockets/ wallet/bag/purse, this also applies to vehicle searching etc. Under no circumstances should the Supervisor take unnecessary risks by placing their own hand into anything that they cannot see clearly into and/or not wearing latex or needle stick proof gloves during the search procedure. (See notes on 'Hypodermic Needles')</p> <p>All occurrences MUST be risk assessed and reported as per our procedures.</p>

Tactical Security Options Ltd

Room 704 Cameron House, White Cross Industrial Estate, South Road, Lancaster, Lancashire, LA1 4XF.

Moving Traffic Crossing Highways, roads, temporary areas used for moving vehicles. I.e. events and parking areas.	Physical Injury	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should ensure that on potentially busy times, (e.g. start and end of shift times, breaks and delivery slots, or special events) that they are aware of the road and attempt to direct customers away from it. This is to stop people traveling onto the road and potentially injuring themselves. <u>No vehicle movement should take place when pedestrians are at risk of coming in to contact with them</u> , all site movement should be supervised by a banks man or other. Cross only at points with clear line of site in each direction, only cross when clear to do so. Use pedestrian crossing points where available Risk of serious or even fatal injuries from moving vehicles on site – particularly when reversing.	1	3	3	Mod.	Supervisors should discourage delivery drivers or taxis from pulling up quickly directly outside any pedestrian areas. Also at the end of the shift when the customers, staff are leaving the site, they should be marshaled to minimise the amount of people walking into the road unsafely. Customers may be under the influence of liquor, drugs or other emotional stress. So extra advice and care should be demonstrated by the Supervisor at all times.  All occurrences MUST be risk assessed and reported as per our procedures.

<b>Adverse Cold Weather, Hot Weather conditions inside or outside working environments, breaks, REFS.</b>	Physical Injury/ Psychological effects Chills, cold, hypothermia Sunburn, sun stroke, dehydration, other medical issues.	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Supervisors should take a proactive role in wearing their PPE, wet weather clothing to be available and worn as required, drying rooms or areas available, welfare facilities with heating and hot or cold water available. Long sleeves to be worn at all times, unless relaxed by TSO management only... ensure plenty of fluids are consumed, if conditions are hot or cold, also use sun protection where applicable. Rest breaks to be only taken in line with government guidance, but must be authorized by TSO management and client customer's management first. Breaks must be authorized and taken when where only. No drinks in cups, glass to be consumed on front doors for health & safety reasons and public perceptions.	2	2	4	Mod.	<p>Supervisors should always request medical advice if feeling unwell, due to weather conditions.</p> <p>NB Note, all Supervisors MUST take with them a grab bag, with the appropriate welfare items inside, to be used accordingly if authorized.</p> <p>Suggested items.  Wet wipes, sun cream, fluids, and food where applicable depending on the length of the shift. Pen, paper, torch, change of socks, gloves, hat where applicable.</p> <p>If not allergic to, take your own personal and prescribed medication if necessary. Items could include antihistamine, dioralyte, ibuprofen, paracetamol, or sweets or other to keep mouth moist and fresh, even small containers of mouth wash or freshener. Other items could include plasters, knee/ankle/elbow supports. Please assess your needs accordingly prior to each shift. You know what you need.</p>

Fire related incidents.	Physical Injury/ Psychological effects /death	Employees, Customers, Others on site lawfully or unlawfully, Supervisory Management on site for audit.	Risk of fire is always going to be a potential high risk in every environment. If a Supervisor detects a fire, they MUST raise the alarm, inform the DPS Manager and evacuate to their RVP. Unless Supervisors have authorized given set roles, for example trained Fire Wardens or Marshals. Then the Supervisor must follow the venue-company police and procedure related to fires and evacuations as per their venue, safely.  Supervisors will also be trained to level two certified training in fire awareness, with additional local policies and procedures to assist.	2	3	6	Sub.	Supervisors should always Request up to date information, and also ensure they follow and refresh training and policy guidance.  Supervisors to comply and follow local procedures, clients risk assessments policies and procedures with government guidance, at all times or until authorized by client or TSO management only, regarding fire controls.  Additional training will be given, as per a risk assessment.  If events have open fires, heated displays or heating, or pyrotechnics, the client should have a fire risk assessment and instruct us of what to do. However ensure barriers are in place and nobody can come in contact with heat or flames for safety.

#### Additional SOPs

Upon arrival at the Albert you enter the first door. Go to the Bar ask for our TSO Venue log, sign the induction form first, see below, then the door supervisors signing in / out log see below.

You then walk into the venue show your face and identify yourself as TSO Door staff for the night, and ask if the manager is about, if not the supervisor is around to let them know the door staff has arrived and ask if there has been any issue.

Then ask for a health and safety tour and briefing of the venue. Once you have had your tour, then go do a check on the fire exits and toilet checks, and report any issues if found.

You then go and have a walk round the venue inside and outside. You then get one of the bar staff to get the radios which are located in the managers office. You then are ready to start the shift.

If there is more than one door supervisor on the shift, one is on the main door at all times and one is floating around inside and outside. If there is more than two on the shift, then two on the main doors one inside the main bar and one patrolling.

The door supervisor on the main door is to carry out ID checks, searches and one door supervisor has a clicker to check capacity. All this is to be recorded in our TSO folder. If there are any incidents, minor or major they also must get reported in our folder, then a text to Operations manager and me mandatory.

People drinking must use the ledges or tables on the sides, so be extra vigilant and keep up with the regular checks as per the AIs, Fire exits, stairways, passages and spillages, please ensure all these areas are clear from clutter, obstructions and anything that can or could cause a problem during and evacuation or surge of movement. If you notice any health and safety issues or concerns, you must inform the client management straight away, in addition make a note in our AIs the site folder, then back it up with an email to me if you feel it needs to be recorded to me for further action or monitoring.

Tactical Security Options Ltd  
Room 704 Cameron House, White Cross Industrial Estate, South Road, Lancaster, Lancashire, LA1 4XF.  
Tel: 07787788811 [dgap@hotmail.co.uk](mailto:dgap@hotmail.co.uk) [www.tacticalsecurityoptions.co.uk](http://www.tacticalsecurityoptions.co.uk) [dave@tacticalsecurityoptions.co.uk](mailto:dave@tacticalsecurityoptions.co.uk)

In the event of a fire or an emergency, if the alarm was activated we would normally call the emergency services ourselves, however on our client's sops, rams they want us to carry out the following:

For the Albert the Fire Evacuation Procedure from the Albert and our role, please read and acknowledge this instruction as part of your AIs, then confirm acceptance of this sop and chat briefing. On the sound of a fire alarm just to keep people calm. If evacuation is needed door staff to evacuate the premises, bar staff stand on doors directing people to the meeting point which is across the road outside the building at the front, unless told otherwise.

The duty manager, will phone the fire brigade if needed. Ensure that all emergency events are then recorded in the log books accordingly. We know it can be difficult but do your best as I'm sure you will, thanks Dave Pattinson

Covid-19 SOPs, this guideline will be issued in written and verbal format by the client, person in charge DPS or Manager; these may change per hour, shift, week or shift. It's a fluid procedure that's needs to be risk assessed dynamically, so we can readjust policies accordingly. All PPE will be available and used in accordance with guidance and policy. All Supervisors MUST inform client and TSO before PPE runs low, it is your responsibility as an employee to comply with health & safety, with a common sense adult approach.

Risk Assessment & Assignment Instructions RAMs Acknowledgement: I/We the venue management nominated person, acknowledge receipt of the above risk assessment, if there are any changes the venue will put any amendments in writing to us. If the venue client does not read sign and agree this risk assessment, then we will take it that they agree to this unless the client provides us with their risk assessment.
