

# Opportunity/Hazard Identification Risk Assessment and Control Actions Policy V3 2024

*All existing (and where applicable, potential) aspects and activities of the organisation, are carried out and controlled in accordance with the core principles and processes of:*

**Opportunity/Hazard Identification**: the awareness to identify opportunities and hazards.

**Risk Assessment**: the ability to assess risk/s associated with opportunities or hazards.

**Control Action/s**: the implementation and use of controls (actions, processes and procedures etc.) to address opportunities and hazards.

*All staff are made aware of this policy and are trained to use the principles of it during the execution of their activities.*

*This **OH-RA-CA** policy applies to all members of the organisation.*
