

Counter Terrorism

V3 2024

In today's society, the threat from terrorism remains real.

The organisation promotes, where practicable, the awareness of and applicability of counter-terrorist activities.

Where applicable the organisation works with Counter terrorism security advisers (CTSAs) to identify and assess sites that may be vulnerable to terrorist or extremist attack and to ensure protective security advice is incorporated into general crime prevention advice and guidance. The local CTSA for advice and support for Lancashire is:

Lou.Green@lancashire.pnn.police.uk

Staff are made aware of the current level of threat from terrorism faced by the UK and where to find information about changes to the threat level. Threat levels are designed to give a broad indication of the likelihood of a terrorist attack.

- *LOW means an attack is unlikely.*
- *MODERATE means an attack is possible, but not likely*
- *SUBSTANTIAL means an attack is a strong possibility*
 - *SEVERE means an attack is highly likely*
- *CRITICAL means an attack is expected imminently*

All staff should remain alert to the danger of terrorism and report any suspicious activity to the police on 999 or the anti-terrorist hotline: 0800 789 321. The Anti-Terrorist Hotline is for tip-offs and confidential information. For warnings about possible bombs or other urgent threats please call 999.

Information on the current threat level is available from: www.mi5.gov.uk/threat-levels

The organisation supports, and where applicable applies the following counter terrorism approaches and activities.

Project Revise and Project Argus and ACT Training

Staff development activities include:

ACT (Action Counters Terrorism) Awareness eLearning
